

# DRONE ESSENTIALS

## General Information

### Description

The DJI Mavic Pro is one of the most popular quadcopters on the market, thanks to its compact size, intelligent flight features, and great photo and video quality. In this course, Jim Heid shares some tips and techniques for getting the most from a Mavic Pro, including tips for setting up and flying safely, getting the most out of the DJI Go app, taking top quality aerial photos and videos, and traveling with the Mavic Pro.

## EXPECTATIONS AND GOALS TOPICS INCLUDE:

- ◆ Safety checks
- ◆ App settings
- ◆ Startup, takeoff, and landing
- ◆ In-flight data displays
- ◆ DJI GO tips
- ◆ Flight modes
- ◆ Streaming live
- ◆ Adjusting focus
- ◆ Exposure and white balance
- ◆ Still photography and panoramas
- ◆ Shutter speed
- ◆ Aerial video
- ◆ Using the gimbal
- ◆ Using the remote controller
- ◆ Calibration

### Course Materials Preparations

- ◆ Prepare Your Mavic
- ◆ Tips for Remote Controller
- ◆ Updates and Batteroes
- ◆ Checklists

### Firmware Update

- ◆ DJI GO App Update
- ◆ PC / Mac Update

### How to Fly

- ◆ Important App Settings
- ◆ Calibration
- ◆ Startup, TakeOff, and Landing
- ◆ Safety Checks

### Standout Features

- ◆ Gesture Mode
- ◆ TapFly
- ◆ Course Lock and Home Lock
- ◆ Terrain Follow
- ◆ Active Track and Follow Me
- ◆ Streaming Life

### Photo and Video

- ◆ Adjusting Focus
- ◆ Exposure and White Balance
- ◆ Tips for Still Photography
- ◆ Tips for Shooting Video
- ◆ Shutter Speed

### Other Possibilities

- ◆ Solutions for Construction
- ◆ Exploring Vegetation

## TIME & COST

3 (Three) days, Rp. 7.500.000, - / Participant; include: Training Kits (paper, stationery, bags), practice using drone, snack, lunch & Certificates  
Training conducted with min. 4 participants.
